

## Resources for Machine Learning Platforms - Intermediate

<a href="#">Learning Azure DevOps</a> – Video Course (2h, 8m)	<i>Azure DevOps is a bundle of services to help developers ship high-quality products faster. In this course, instructor Walt Ritscher teaches you everything you need to get up and running using this DevOps solution.</i>
<a href="#">Learning Azure Network Security</a> – Video Course (1h, 20m)	<i>In this course, Instructor Shyam Raj provides foundational coverage of the security features offered by Azure.</i>
<a href="#">Learning Azure Kubernetes Service (AKS)</a> – Video Course (1h, 18m)	<i>In this course, instructor Richard Hooper shows you how to use Azure Kubernetes Service (AKS) to create a secure, robust, and agile containerized application platform.</i>
<a href="#">Learning Azure Management Tools</a> – Video Course (1h, 42m)	<i>This course provides an introduction to the four key Azure management tools: the Azure portal, the Azure CLI, PowerShell, and JSON templates.</i>
<a href="#">Azure Storage Essential Training</a> – Video Course (2h, 17m)	<i>This course gives a broad level of knowledge on the overall landscape of Azure Storage, as well as an introduction to all the concepts.</i>
<a href="#">Leveraging Cloud-Based Machine Learning on AWS: Real-World Applications</a> – Video Course (1h, 28m)	<i>Instructor David Linthicum introduces SageMaker, Amazon's AI platform, and presents a variety of use cases that demonstrate current best practices, tools, and techniques.</i>
<a href="#">AWS Disaster Recovery</a> – Video Course (1h, 59m)	<i>This course reviews the benefits of the public cloud, specifically Amazon Web Services (AWS), in implementing a DR plan.</i>
<a href="#">AWS Security Best Practices for Developers</a> – Video Course (1h, 4m)	<i>In this developer-centered course, instructor and AWS Certified Solutions Architect Carlos Rivas shows how to build stronger, more secure applications for deployment on Amazon Web Services.</i>

---

[AWS Monitoring, Logging and Remediation](#) –  
Video Course (1h, 38m)

*In this course, Shyam Raj provides system administrators with a look at how to successfully monitor resources and applications and how to remediate problems that may arise.*

---

[Leveraging Cloud-Based Machine Learning on Google Cloud Platform: Real World Applications](#) –  
Video Course (1h, 19m)

*This practical course takes you through the basics of leveraging GCP for AI-based applications, including the tools that you can leverage today and how to use them correctly.*
