

Resources for Machine Learning Development - Advanced

AI and Machine Learning: Advanced Decision Trees - Video Course (1h, 16m)	<i>If you're working towards an understanding of machine learning, it's important to know how to work with decision trees.</i>
SQL Server Machine Learning Services: Python - Video Course (2h, 28m)	<i>Learn how to analyze SQL Server data with Python.</i>
SQL Server Machine Learning Services: R - Video Course (2h, 11m)	<i>SQL Server now includes support for direct execution of R code. This integration allows complex data science analyses to be performed quickly in a secure environment, without having to export data sets first.</i>
Training Neural Networks in C++ - Video Course (1h, 46m)	<i>Learn about the purpose, structure, and training process of neural networks to improve your machine learning skills.</i>
Training Neural Networks in Python - Video Course (1h, 45m)	<i>Instructor Eduardo Corpeño helps you learn by example by providing a series of exercises in Python to help you to grasp what's going on inside.</i>
